ΞXIGENT

TurnKey Cloud

Managed infrastructure as a service offers the power of the cloud—with a trusted partner that knows your business

When Exigent customers appealed to our team to offer cloud services they could trust, they were looking for 100% transparency, 99% or more uptime, and white-glove service by local experts. The result was TurnKey Cloud. With Exigent's private cloud services, your organization can take advantage of the scalability and flexibility of infrastructure as a service, fully supported by our experienced team.

Our cloud computing infrastructure is owned, maintained, and supported by us and is often the perfect solution for businesses that:

✓ Want complete control over their data

✓ Need scalable solutions that flex with their changing business needs

✓ Expect white-glove support and service from a local team

✓ Need secure, highly available solutions for office, hybrid, and remote staff

✓ Enjoy predictable, subscription-based access to technology resources

Features & Capabilities of Managed Firewall

No upfront hardware investment	Improved resource utilization	Increased security	Easier regulatory compliance	Flexibility – only pay for what you use	Scalability
